

Scotwood Industries, Inc.

FreezGard[®]

LIQUID MAGNESIUM CHLORIDE

The Liquid Solution for Snow and Ice Control.

Offers superior melting capability, while being less corrosive than other snow and ice removal chemicals.

Put FreezGard[®] to work for you.

- Melts Snow and Ice Even Under the Most Extreme Conditions
- Economical
- Environmentally Friendly
- Reduces Equipment Corrosion
- A Proven Performer

FreezGard®

LIQUID MAGNESIUM CHLORIDE

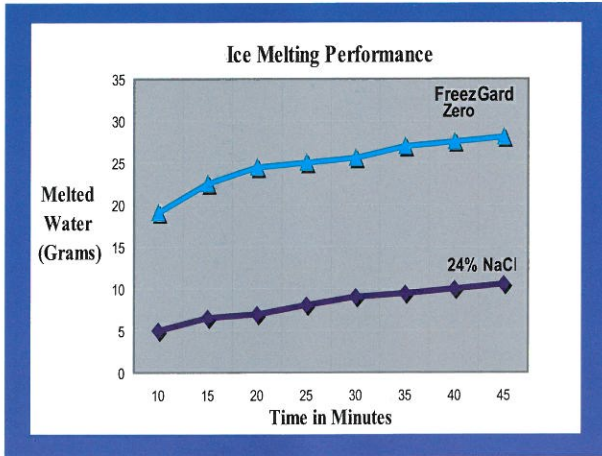

How is FreezGard® Used?

- Anti-Icing - Applied ahead of a storm event to prevent ice and snowpack from bonding to pavement.
- De-Icing/Prewetting - Used in the application of materials (salt and abrasives) during and after a storm event.
- Stockpile Treatment - Applied to a stockpile to help dry material work more efficiently at colder temperatures... reduce bounce and scatter...keep materials free-flowing.

Why is FreezGard® Used?

FreezGard® is often used to prewet salt as road crews apply salt during and after a winter storm. This method coats the salt prior to it being applied to the highway. In liquid form, FreezGard® begins melting immediately and creates a brine mixture that activates the road salt for faster melting action. When used as recommended, this not only begins the melting process faster, but also helps keep more of the salt on the road.

- Get to the bare Pavement Faster
- Safer Roads for Motoring Public
- Cost Efficient De-Icing Value
- Meets with all PNS (Pacific Northwest Snowfighters) Specifications
- Eliminates the Headache and Costs Associated with Spring Clean-Up
- Reduces Overtime and Fuel Consumption

THE SCOTWOOD ADVANTAGE

- Industry Leader for Over 20 Years
- Expert Advice and Consultation
- Extensive Distribution Network

Scotwood Industries, Inc. is an authorized distributor of FreezGard®. FreezGard® is manufactured by North American Salt Corp. The FreezGard® name and logo is used with permission of NASC. Customer is responsible for determining whether Seller's products are appropriate for Customer's use. Seller assumes no liability for how Customer may use Seller's products. NO WARRANTIES ARE GIVEN OR IMPLIED.

| Available Products: | Available Sizes: |
|-------------------------------------|--------------------|
| FreezGard® Zero | Bulk Tanker Trucks |
| FreezGard® with Corrosion Inhibitor | Bulk Rail Cars |
| | 250 Gallon Totes |
| | 55 Gallon Drums |
| | 5 Gallon Pails |
